

Amadeus SAS Training 2012

Amadeus Software has over 20 years of expertise in providing cost effective SAS training, with an international reputation for exceptional trainers, high quality course materials and Continuous Professional Development.

Key benefits of attending an Amadeus course

Instructors

- Full time and SAS certified instructors
- In-depth and up-to-date knowledge of SAS software
- Multi-tasked and have substantial SAS experience gained through working on consultancy projects as well as teaching
- Bring real world experience to the classroom
- Combine proven effective learning methods with a practical approach during the training sessions

Course Material

- Courses are written from many years of SAS experience
- Organised into demonstration sessions, lectures and workshops, not PowerPoint slides
- Professionally bound, fully indexed, colour training material
- Packed full of examples and SAS techniques
- Recognised as valuable reference material to use back in the workplace

Continuous Professional Development (CPD)

Our core courses: SAS Fundamentals, SAS Programming and SAS Macro include a choice to register for a two hour, interactive, live CPD revision webinar session up to four months following classroom attendance (incurs extra charge - see website for more details). The CPD revision webinars are part of our Continuous Professional Development Program and designed to support you in reinforcing your SAS knowledge following classroom attendance.

Key benefits of attending an Amadeus webinar

- A great way to increase your SAS skills online
- Time saving and avoiding extra costs; no need to travel or book a hotel
- Webinars are interactive and you have the opportunity to ask questions throughout the two hour event
- Handouts are available for all delegates
- Delivered by Amadeus SAS certified Consultants

Company discounts available. Credit and debit cards accepted.
