

## CONSULTANCY

Amadeus have a portfolio of experience across many industry sectors. We bring the knowledge, skill and real-world experience cumulated across projects and industries to your company. We have people with years of service in many different vertical markets behind them, and as a SAS partner have the know-how to apply lessons, techniques and solutions across those boundaries to bring you innovation in a unique way.

Amadeus consultants have designed and implementing SAS solutions in all these industries:

- Banking
- Entertainment
- Financial Services
- Government
- Healthcare
- Life Sciences
- Manufacturing
- Marketing
- Publishing
- Retail
- Pharmaceuticals
- Small and Medium Sized Businesses
- Telecommunications
- Travel & Tourism

**We understand technology must apply to the business environment it is intended to serve.** That is why Amadeus consultants strive to fit SAS technology to your culture, making it a part of the business process, rather than leaving you to mould the business around the software.

**We understand every project should support your company's strategic plan.** Amadeus can help with the SAS element of your strategic plan or can align with existing strategies.

**We understand that cost of ownership must be driven lower and business benefit pushed to the optimum.** We will maximise the return on your SAS Investment throughout your business.

**We understand how to use SAS to improve processes.** Amadeus work in partnership with you to transfer this knowledge from within your company.

**We have a wealth of experience,** and we'd like to share it with you.

## ABOUT AMADEUS – The SAS Specialists

Amadeus Software Limited, formed in 1989, provides Business Intelligence Solutions. We are a SAS 9 Preferred Implementation Partner for delivery of SAS projects across all industries. We have earned our outstanding reputation by providing first-class solutions, unrivalled technical support and clear, practical training. We achieve this through our commitment to remain at the forefront of Business Intelligence technology. Therefore, we provide solutions that meet customer objectives, reinforced by our project management processes structured to provide pragmatic quality assurance which promotes successful delivery. Our full time Consultants and Trainers are highly skilled in all aspects of SAS and are SAS certified.
