

ABOUT AMADEUS

Amadeus Software is an independent leading SAS Consultancy with a global reach. We have been providing SAS services since 1989 and are a SAS Institute preferred implementation partner. Our consultancy projects offer a variety of experiences from installation, through data integration, business intelligence, analytics and application development. Our customers are wide and varied; from globally recognised organisations, through to specialist small companies.

SENIOR CONSULTANT - JOB DETAILS

This is an exciting role and you will work in collaboration with your colleagues to deliver projects and continually refine Amadeus' training and support propositions.

Your primary duties and responsibilities will include:

- Provide SAS programming and consultancy to customer projects;
- Perform implementation and support on customer projects;
- Perform project management tasks;
- Provide input to the development of training materials;
- Conduct customer training courses, seminars, webinars and workshops;
- Represent Amadeus with technical papers at conferences and special interest groups;
- Maintain a minimum of SAS Institute's Advanced Certification.
- Perform ongoing study of industry developments;
- Train and mentor technical staff;
- Promote awareness to colleagues of new SAS developments, emerging industry standards and other vendor developments impacting SAS;
- To act professionally and as an ambassador for Amadeus Software;

JOB REQUIREMENTS

Suitable applicants will be qualified with the minimum of a BSc (Hons) degree in a numeric or scientific discipline. A minimum of four years SAS experience is required. You may already have achieved Base or Advanced SAS Certification if not this will be supported and funded by Amadeus Direct experience of SAS Customer Intelligence, Risk Management or Marketing Automation is advantageous. You must have strong communication skills as well as good organisational skills.

IN RETURN

Amadeus Our working environment, located near the desirable city of Oxford is quite unique. This is an excellent opportunity to work with the best SAS products and even position yourself as a key figure in the SAS industry. We are different, we do work that we enjoy and have fun doing it. We make sure there is a work-life balance too. Equally we know that remuneration for living well now and planning for the future is just as important; here's what we offer:

- Salary negotiable depending on experience
- Higher than average annual leave (we even have our own Bank Holiday to celebrate St. Georges day!)
- Bonuses to share company profit and reward excellence
- Pension contributions
- Car allowance
- Travel, accommodation and subsistence expenses when working offsite,
- Membership to professional bodies
- Company funded events - past events include weekends to South of France, Go Ape, Skid Control at Silverstone.

This is a fascinating career opportunity where you will have access to the latest technologies and where there is always something new to do and learn. You will meet a diversity of people and organisations and you will be faced with many challenges. We're always professional, but we also have fun in doing what we do.
